

Jira Align User Academy

Boost your team's adoption of Jira Align with our intensive 1-day course, tailored to enhance visibility and strategic alignment across your organization. Participants will gain hands-on experience in planning, managing, and reporting on enterprise strategy within Jira Align, arming them with the crucial skills needed for successful strategic oversight.

Key features:

- **Comprehensive Integration and Navigation Training:** Explore the seamless integration between Jira and Jira Align, and get hands-on experience with general navigation and user preferences to streamline your workflow.
- **Effective PI Planning and Management:** Learn how to prepare Jira and Jira Align for Program Increment (PI) planning, manage dependencies, and address risks, ensuring a smooth and efficient planning process.
- **Advanced Objective and Risk Management:** Dive into techniques for managing objectives and risks, and master the creation of custom checklists and reports to enhance your strategic oversight and decision-making capabilities.
- **Insight into Roadmaps and Best Practices:** Gain valuable insights into the Jira Align roadmap, estimation best practices, and the use of OKRs (Objectives and Key Results) to drive performance and align your team's goals with enterprise strategy.
