

Leading SAFe® - Certified SAFe® Agilist

New to the Scaled Agile Framework®? Leading SAFe® offers you an introduction to the foundations of SAFe®, and provides the principles and practices to confidently drive your Lean-Agile transformation. The course and resulting certification offer the guidance and tools to build a culture of resiliency and a shared language that engages employees and focuses on customers so that organizations can work with agility at scale.

Take a Leading SAFe® course to discover how companies can build business agility, and how to make SAFe® work inside your organization. You'll come away with an understanding of how to align your entire organization around the same clear objectives, and how to improve the flow of value and work from strategy to delivery. You'll learn what makes companies more customer-centric and how to run key SAFe® alignment and planning events, like PI planning.

Attendees learn:

- How to realize the benefits of SAFe®, including:
 - How to establish Team and Technical Agility and organize around the flow of value
 - How to align massive organizations around clear, common objectives
 - How to participate successfully in critical SAFe® events, such as PI Planning
 - How to adopt a customer-centric mindset
