

SAFe® Scrum Master - Certified SAFe® Scrum Master

The SAFe® Scrum Master course equips attendees to coach Agile teams to deliver business value at scale. The course teaches you the tactical skills needed to be an effective Scrum Master in a SAFe® organization. It also gives you the guidance and tools necessary for working in remote environments with distributed teams. If you want to become a certified scrum master with the skills to help leading companies succeed with Agile and scrum, the SAFe® Scrum Master course is for you.

Learn how scrum masters empower and lead Agile teams. Understand how to facilitate Agile events like iteration planning, team sync, and iteration retrospectives. And discover how to help teams plan and complete their work using SAFe® Scrum and SAFe® Kanban. You'll also learn the principles of servant leadership, so you can help develop high-performing, engaged, continuously improving teams in your organization.

After taking the course, you'll know how to:

- Empower and lead an Agile team
- Facilitate Agile events like iteration planning, team sync, and iteration retrospectives
- Help teams plan and complete their work
- You'll also learn the principles of servant leadership, which are crucial for key SAFe® team roles. These skills will enable you to develop high-performing, engaged, and continuously improving teams in your own organization.

Attendees learn:

- How to facilitate Scrum events
- How to support PI execution
- How to coach teams to improve constantly
- How to implement DevOps for continuous flow and delivery
